Software engineer building production AI automation: 110+ automations that took over 95% of a marketing team's recurring tasks. B.S. Computer Science and five years at Cubic Transportation writing Java, Python, and C++; now building LLM pipelines, MCP servers, and tested CRM/data integrations in a regulated (FINRA) environment. Author of open-source hubspot-mcp. I ship guarded, tested systems and explain them clearly to non-technical stakeholders.

CAREER HIGHLIGHTS

- Built a platform of **110+ automations** that took over 95% of a marketing team's recurring tasks (110 of 116).
- **4,800+ automated tests** guard ~20 integrated platforms and **1,800+ leads a week**.
- Author of open-source **hubspot-mcp** (13 tools); five years of Java, Python, and C++ at Cubic.

KEY SKILLS

Languages	Python · TypeScript · Java · C/C++ · SQL · JavaScript/Node.js · PowerShell
AI & LLMs	Claude · LLM agents · Model Context Protocol (MCP) servers · prompt engineering · LLM content pipelines · Hugging Face · evaluation & guardrails
Data & Integration	REST APIs & OAuth · Playwright · Chrome DevTools Protocol · pytest · AWS (EC2) · data pipelines · Salesforce · HubSpot · GA4 · Make.com · n8n · Git
Domain	Marketing technology · financial services (FINRA) · healthcare/dental · eCommerce · transit systems

SELECTED OPEN SOURCE

hubspot-mcp *(github.com/daniel54269/hubspot-mcp)* · Open-source Model Context Protocol server that lets Claude and Cursor read and write HubSpot CRM data. TypeScript, 13 tools (contact search, pipeline summary, contact updates, note creation). MIT.

EXPERIENCE

Digital Marketing Specialist, *Wealth Enhancement Group* — Aug 2025 – Present · San Diego, CA

- Designed and built an in-house marketing-operations platform: **110+ automations** on 120+ scheduled jobs that took over **110 of 116 recurring team tasks (95%)**, built in about three months.
- Integrated **~20 platforms** through REST APIs and OAuth (two Salesforce orgs, HubSpot, Meta Marketing API, Google Ads, LinkedIn, YouTube, Google Workspace, GA4, Microsoft 365) processing **1,800+ leads a week**.
- Guarded with **4,800+ automated tests** (pytest); every production write runs dry-run, test record, read-back, and rollback log; a watchdog retries failed runs and an AI fixer ships code fixes only after the full suite passes.
- Engineered LLM content pipelines that scan every AI-generated draft and creative against FINRA-style rules with an audit log; moving the first service to AWS.
- Automated platforms without usable APIs through **Playwright and the Chrome DevTools Protocol**, with a session keeper holding a dozen platforms signed in through single sign-on.

Director of Marketing, *Novadontics* — May 2025 – Jan 2026 · Remote

- Ran marketing for **three brands** (Novadontics, Care Pulse, California Implant Institute), reporting directly to the CEO.
- Rebuilt HubSpot lifecycle and GTM attribution in 90 days; consolidated three siloed tracking setups into one reporting model used in weekly executive reviews.
- Built Make.com automations replacing manual lead routing across brands, supporting retirement of fragmented external agency engagements.

CMO / Co-founder, *Nokkomo Mints* — Sep 2023 – Present · North County San Diego

- Cut Amazon Advertising ACOS from **81% to 38% in 90 days** (2024) while scaling daily spend 3×; brand now sells across Shopify, Amazon FBA, Walmart, and TikTok Shop.
- Built an intern program now **30 active across 8 universities**; built weekly negative-keyword harvesting and creative-rotation systems for Amazon Ads.

Founder, *HAZE Media Agency* — 2019 – 2024 · San Diego, CA

- Built an AI content pipeline (Claude → Drive → Make.com → Buffer → IG/TikTok) producing 30+ posts a month per brand.

Software & Systems Engineer, *Cubic Transportation Systems* — Jan 2019 – Apr 2024 · San Diego, CA

- Built internal automation in **Java, Python, and C++** for application lifecycle management: testing, workflow, and defect tracking across multi-team transit fare-system programs.
- Produced release reports for program managers and external customers; owned test environment configuration.

EDUCATION

University of San Diego · B.S. Computer Science — 2018 – 2022
