danielmoran.dev · Oceanside, CA

Head of Marketing for early-stage B2B SaaS. I run marketing like a product team — hire the org, instrument the funnel, ship the cadence the CEO trusts. Engineering background (CS, 5 yrs at Cubic) means I build the systems behind the funnel instead of waiting on someone else to.

EXPERIENCE

Director of Marketing , *Novadontics* May 2025 – Jan 2026 · Remote

- **Director of Marketing reporting to CEO** across three brands (Novadontics, Care Pulse, California Implant Institute) — owned email, social, paid, analytics, and events for all three.
- Rebuilt HubSpot lifecycle and GTM-driven attribution in 90 days; consolidated three siloed tracking setups into a single source of truth used in weekly leadership reviews.
- Built Make.com automations replacing manual lead-routing across brands; cut ops time enough to retire fragmented agency engagements.
- Owned events motion for California Implant Institute — represented brand at industry events; pipeline conversations landed in CRM same week.

Digital Marketing Specialist , *Wealth Enhancement Group* Aug 2025 – Present · Remote

- **Lead a 4-person marketing team** owning paid + lifecycle + webinars; six-figure monthly budget across Meta and Google for a B2C wealth firm.
- Built attribution + weekly C-suite reporting system; replaced a 6-hr/week spreadsheet and became the budget-allocation source of truth.
- Deployed Cowork + Claude content pipeline (Drive → Make.com → Buffer with Hugging Face MCP for asset generation); authored open-source **hubspot-mcp** so Claude reads and writes CRM data directly.
- Lifecycle email + webinar funnels (Cowork-assisted copy, GA4 QA), lifting webinar attend-rate by double digits QoQ.

CMO / Co-founder , *Nokkomo Mints* Sep 2023 – Present · Oceanside, CA

- **Reduced Amazon Ads ACOS from 81% → 38% in 90 days** while scaling daily spend 3x, driving trailing revenue from \$4K → \$40K (913% YoY).
- Built Amazon Ads architecture from scratch: SP/SB/SD coverage, negative-keyword harvesting cadence, creative-rotation system.
- Stood up Shopify DTC funnel alongside Amazon — Klaviyo lifecycle, Meta retargeting, Triple Whale attribution.
- Co-led product positioning, pack design, and GTM narrative.

Founder , *HAZE Media Agency* 2019 – 2024 · San Diego, CA

- Built **end-to-end content automation pipeline** (Claude/Cowork → Drive → Make.com → Buffer → IG/TikTok) producing 30+ posts/month with zero manual intervention.
- Codified a replicable TikTok viral framework used across DTC, hospitality, and B2B clients; multiple seven-figure-view campaigns.
- Lead paid, SEO, and personalization strategies using Make.com, HubSpot, Mailchimp, Triple Whale, and Google Tag Manager.
- Direct creative for photo + film; manage a contractor bench of editors, designers, and developers.

Software & Systems Engineer , *Cubic Transportation Systems* Jan 2019 – Apr 2024 · San Diego, CA

- Optimized ALM tooling for testing, workflow, and defect-tracking across multi-team systems engineering programs (transit fare systems).
- Wrote internal automation in **Java, Python, and C++** — the systems-thinking foundation for the marketing automation work today.
- Owned test environment configuration and reporting for releases consumed by program managers and external customers.

SELECTED OPEN SOURCE

hubspot-mcp (github.com/daniel54269/hubspot-mcp) — Open-source **Model Context Protocol server** connecting Claude / Cursor to HubSpot CRM. TypeScript, 13 tools (search contacts, pipeline summary, update contacts, create notes), MIT.
