EXPERIENCE

Digital Marketing Specialist, *Wealth Enhancement Group* — Aug 2025 – Present · San Diego, CA

- Designed, built, and run an in-house marketing operations automation platform that took over **110 of 116 recurring team tasks (95%)**: **110+ automations** on 120+ scheduled jobs, built in about three months.
- Turn **1,800+ leads a week** into verified CRM records, with data-quality and duplicate audits and reconciled reporting across two Salesforce orgs and HubSpot.
- Run email and paid media on schedule: weekly webinar invite rounds, paced daily enrollment of tens of thousands of contacts, and dozens of compliance-checked event ads a week with wasted-spend and creative-fatigue alerts.
- Every AI-generated draft and creative is scanned against FINRA-style rules and logged; every production write is dry-run, read-back checked, and rollback-logged, guarded by **4,800+ automated tests**.
- Built prospect-to-client attribution (rules engine, cost per client, ROI) and daily and weekly dashboards across ~20 connected platforms; manage **six-figure monthly paid media budgets** across Meta and Google with server-side conversion tracking.
- Automated webinars and seminars end to end: rooms, registrant imports, attendance reconciliation, recording uploads, live-stream checks within minutes of start, plus landing pages, sign-ups, and attendee lists.
- Ship AI-drafted blog posts, social posts, and ad creative, with SEO search-demand and content-gap reports.
- A watchdog checks the system four times a day and retries failed runs; an AI fixer ships code only after the full test suite passes.
